### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Judson K. Champlin on 02/03/04.

The application has been amended as follows:

**In the claims:**

- a) in claim 1, line 1, after "assembling", delete " a ";
- b) please cancel claims 25-29;

2. The following is an examiner's statement of reasons for allowance: the primary reason for the allowance of the claims is the inclusion, in all of the claims, of the steps of embedding the positive plate grid and the negative plate grid each other such that the plurality of notches of the positive plate grid are opposite to a plurality of protruding portions of the negative plate grid and said plurality of notches of the negative plate grid are opposite to a plurality of protruding portions of the positive plate grid, respectively; and folding both plates along the middle lines between adjacent protruding portions of the positive and negative plate grids. The instant application is now deemed to be directed to an unobvious improvement over the invention patented in patents 4761352 to Bakos et al, 3663721 to Blondel et al and 4761352 to Pyszczyk et al. Refer to the amendment of December 15, 2003 for further details.
